Attachments: PDF - female body armour survey

Dear Colleague

Cranfield University Survey on Female Body Armour

Please find attached a self-explanatory pdf with a link to a survey we would encourage members to participate in. It relates to female officers and body armour, and is as a result of further studies being conducted by CAST/Cranfield University. It is supported by both the Scottish Police Federation and the Police Federation of England and Wales.

The survey is confidential and will greatly assist the work the University is carrying out, which will hopefully produce a better fit of body armour for our female colleagues.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Calum Steele'.

Calum Steele
General Secretary

- The information collect from this questionnaire will be used to help in research aiming develop an enhanced model for testing of female ballistic and knife resistant body armour for UK police.
- All the information collected is anonymous and cannot be linked back to any participant.
- The questionnaire and all data collected has been approved by the Ethics committee at Cranfield University and is compliant with requirements of the data protection act.
- The data collected may be used by Cranfield University on publications or future work, however it cannot be linked to any individual person.
- You do not have to answer any questions you do not wish to.
- If you have any further questions please ask
- If you are happy to proceed please follow the link below
