

Identifying and arranging cost-effective healthcare

The unique specialist services of Medical Care Direct are being offered to assist you by identifying consultants, hospitals and treatment, as well as guide you through the maze of healthcare options in an unbiased and concise way that allows you to make informed choices tailored to personal needs and ensure maximum benefit from your funds.

The main features include:

- Price comparison service for all types of treatment
- Discounted rates for in-patient and out-patient diagnostics (MRI Scans, X-Rays)
- Negotiation of fully inclusive fixed-cost surgery packages
- Access to over 20,000 consultants
- The choice of over 400 UK hospitals and NHS patient units
- Fast appointment booking
- Unbiased information

Medical Care Direct

Treatment Sourcing Service

This service is designed to ensure maximum value for money by allowing your funds to stretch as far as possible. You tell us what is important i.e. price, location, timescale or a particular specialist or treatment. We then identify the options available that most closely match your needs. You can discuss these options with your GP and once you have made your choice we do the rest, arranging out-patient consultations, diagnostic tests, through to in-patient hospital procedures. All costs are identified prior to your treatment using our previously negotiated rates. The majority of admissions are arranged on a fixed-price basis ensuring no unexpected additional costs.

Hospitals and Specialists

We have an extensive database of all private hospitals and NHS Private Patient Units within the UK along with access to over 20,000 consultants in all major specialties. We place thousands of procedures with hundreds of hospitals each year across a range of specialties and treatments, ranging from cataract to heart surgery.

Diagnostics

In addition to in-patient treatment we can arrange MRI and CT scans along with X-Rays and many other types of out-patient diagnostic tests and treatments such as Physiotherapy, Osteopathy etc.

Support all the way

Our telephones are answered personally with no press button options. We aim to remove the anxiety from an already stressful situation and work hard to accommodate your needs for treatment with as little disruption to your daily life as possible.

Overseas Treatment

A growing aspect of UK healthcare is the expansion of choice and this includes the option to use overseas facilities for treatment. In response to this demand we have established a number of links with overseas hospitals that can offer highly competitive rates on a wide range of procedures.

Health Screening

We are able to offer special rates for health screening services around the UK with either male or female doctors. Please contact us for details.

About Us

Medical Care Direct Ltd was formed in 2000 specifically to address the needs of those who are seeking an alternative to the standard PMI approach to funding healthcare in the UK.

The Directors and staff have many years of experience in the healthcare industry within both the NHS and private healthcare sectors.

We provide services to both individuals and companies including the police, schools, travel companies, medico-legal firms, screening companies, corporate healthcare trusts, the NHS and a variety of other organisations.
